

Greene County High School  
School Improvement Grant

# A Level Playing Field

preparing our students for endless opportunities

## Today—Algebra II, Tomorrow—Neurosurgery

Elizabeth Venzel, Junior

Greene County High School Junior, Elizabeth (Liza) Venzel, is a problem solver. Whether in the classroom solving math problems or in the community as a student leader she is intrigued by figuring out how and why things work. Liza's passion for solving problems has inspired her to pursue a career in Neurosurgery.

As a member of the Imagine Students, a team of 10 students selected to pilot the School Improvement Grant's iPad program, Liza has used the iPad to record lectures, organize course material, and further explore science and math concepts. Liza's favorite iPad program, a science App, has helped her learn more about the human brain in High School than

she ever thought possible. The School Improvement Grant's focus on real world training and academics rigor are preparing Liza to succeed in college & medical school.

Liza is ready to Level the Playing Field thanks to the programs being offered by Greene County High School and the School Improvement Grant. Join Liza as she goes from Greene County student leader to Neurosurgeon and GO GREENE.
